

## GENERAL CONSTRUCTION SCHEDULE RESTRICTIONS

- (1) For the general information of Suppliers, a schedule of Event Dates for the various buildings at Exhibition Place has been included are herewith further advised that the **Contractor** will be required to co-ordinate the **Work** with Board personnel to minimize disruption of any Event(s); for instance, parking requirements for certain events at Exhibition Place may also limit the performance of the **Work** anywhere in the grounds.
- (2) The schedule of Events may contain more detailed scheduling restrictions arising from construction projects other than the **Work** and therefore should be read carefully and be fully understood by every Supplier.
- (3) A more detailed listing of the particular events at Exhibition Place may be made available, if deemed necessary, with the permission of the **CEO**, after the award of contract.
- (4) The schedule of Events Dates is subject to revision at any time and the **Contractor** may be required to reschedule certain phases of the **Work** to suit the revised Schedule.
- (5) At this time, as a result of the proposed nature and location of the **Work**, it is anticipated that it will cause substantial interference with the parking requirements for certain events currently scheduled in the adjacent buildings; accordingly, the **Contractor** will be required to perform the **Work** in the following general sequence:
  - (i) Pre-construction Meeting : Week of June 22, 2020  
(Shop drawings & site measurement)
  - (ii) commence construction : Week of June 22, 2020
  - (iii) on site construction : Week of June 22, 2020
  - (iv) achieve Substantial Completion : December 4, 2020
  - (v) achieve total performance : December 18, 2020

**Construction Shutdown During:** Honda Indy, Canadian National Exhibition, Royal Agricultural Winter Fair show schedule subject to change.

### General note:

- (A) Contractor is to fully cooperate with staff on other shows and events that might affect its operations pertaining to the Construction Deadline.
- (B) Construction time given above and or in the construction schedule in Section II is considered to be 24 hours per given day (available from morning 12 AM to evening 11:59PM). Suppliers have to finish work within the set periods with that in mind without claiming extra for premium rate or overtime.
